ASHFORD, McDOWELL CO., N. C.

July, 1934

Dear Customer:

Enclosed herewith partial Inventory Grade Count. This with catalog offerings, represents what we believe to be the largest and most complete stock of Native Ornamental Trees, Shrubs and Plants in existence.

Some of our surplus stocks must be reduced to make room for young plant material coming on in our Nurseries. To induce early buying we have decided to allow Special Sale Prices on all orders placed in July and August, for August, September and later Autumn delivery at proper time. It is therefore requested that you look over this Inventory at your early convenience and let us have list of stock you can use. Very lowest bargain prices will be promptly quoted in accordance with sizes, grades and quantities wanted.

Special Freight allowance will apply on carload orders placed in July and August. Let us figure on your requirements now for Fall planting. Will make it to your advantage to buy now.

August, September and Autumn planting is recommended for best results. This will enable the roots to get established before Winter, and start growing in early Spring before Spring planted stock overcomes the setback of transplanting. Autumn planted Natives bloom well the first year and may save disappointment later.

All growing conditions have been very favorable this season to make high quality Nursery Stock in Gardens of the Blue Ridge. We are much better prepared than ever before to serve our customers acceptably.

If we have pleased you in the past, tell your neighbors and friends. They might want to order with you to make up carload to take advantage of special bargain prices and saving in Freight.
